What are you doing to help yourself or your loved one right now, and how can you make it better than what is-

For me, It started with the need to help more people and invest most of my time in people's lives, as a way of giving back to the community. That is why I started Jamhuri Healthcare Services 15 years ago.

Since then I have been using most of my time sending caring individuals to senior

and disabled adults home to provide the much needed care. It is without a doubt the live I have decided to live and surely the work I love to do. To me, it's ministry and not a business.

Every now and then we come across a senior or an adult who needs our services, and at the same time we get a lot of job enquiries from people in the caring industry.

Whether you are looking for a caregiver or a job as a caregiver, we are just a phone call away and you can also reach us through our website:

Best of all you can subscribe to our newsletter and we will keep you updated to what we are doing, such as a senior discount week, free transportation week, job openings and much more.
